**Subject:** San Jacinto Independent Review

Folks,

I am preparing a list of tasks to be accomplished for the independent review to be performed for the San Jacinto site. For example, the tasks may include evaluations/assessments of river hydrology/modeling, containment issues, removal options/dredging, etc. I would appreciate any suggestions you may wish to make to develop information that would aid in remediating the San Jacinto site. Please let me know any ideas by nearly next week if possible.

Thanks,

Gary Miller
